

サイコロ裏目計算 たし算・ひき算 4

★サイコロは表側と裏側の目を足すと合計で「7」になります。それぞれのサイコロの裏目を考えながら計算をしてください。

例)

$$\begin{array}{ccccccc} \begin{array}{|c|} \hline \bullet \\ \hline \end{array} & + & \begin{array}{|c|} \hline \bullet \bullet \\ \hline \end{array} & - & \begin{array}{|c|} \hline \bullet \bullet \\ \hline \end{array} & = & \boxed{4} \\ \text{裏目} & & 5 & + & 1 & - & 2 \end{array}$$

① $\begin{array}{|c|} \hline \bullet \\ \hline \end{array} + \begin{array}{|c|} \hline \bullet \bullet \\ \hline \end{array} - \begin{array}{|c|} \hline \bullet \\ \hline \end{array} = \boxed{}$

② $\begin{array}{|c|} \hline \bullet \bullet \\ \hline \end{array} + \begin{array}{|c|} \hline \bullet \\ \hline \end{array} - \begin{array}{|c|} \hline \bullet \bullet \\ \hline \end{array} = \boxed{}$

③ $\begin{array}{|c|} \hline \bullet \\ \hline \end{array} + \begin{array}{|c|} \hline \bullet \bullet \\ \hline \end{array} - \begin{array}{|c|} \hline \bullet \bullet \\ \hline \end{array} = \boxed{}$

④ $\begin{array}{|c|} \hline \bullet \bullet \\ \hline \end{array} + \begin{array}{|c|} \hline \bullet \\ \hline \end{array} - \begin{array}{|c|} \hline \bullet \\ \hline \end{array} = \boxed{}$

⑤ $\begin{array}{|c|} \hline \bullet \\ \hline \end{array} + \begin{array}{|c|} \hline \bullet \bullet \\ \hline \end{array} - \begin{array}{|c|} \hline \bullet \bullet \\ \hline \end{array} = \boxed{}$

⑥ $\begin{array}{|c|} \hline \bullet \bullet \\ \hline \end{array} + \begin{array}{|c|} \hline \bullet \bullet \\ \hline \end{array} - \begin{array}{|c|} \hline \bullet \bullet \\ \hline \end{array} = \boxed{}$
